SYNOPSIS

The Decentralized Dance Party (DDP) is a movement working to achieve global unity through "Capital-P Partying".

A Battle Plan for World Peace is the astonishing, hilarious and inspiring story of this revolutionary new peace movement. One that, despite innumerable challenges and catastrophes, including the 2020 pandemic, has only increased in power and potential!

The DDP's founders, best friends Tom and Gary, are the Renegade Party Architects who invented the Decentralized Sound System. A portable FM transmitter broadcasts music and voice out to hundreds of boomboxes, carried by thousands of participants, creating a mobile, synchronized sound system that can go *anywhere!*

With no Centralized stage, everyone within the Party becomes an essential and equal performer and participant. All ages, backgrounds and styles are encouraged to come out and let loose, together creating The Most Inclusive Party Possible.

The DDP core objective is to liberate people from their inhibitions via the Party *itself*, rather than relying on drugs or alcohol. Partying by elevating consciousness, rather than destroying it: *Capital-P Partying*.

By creating moments of joy and transcendence, social healing occurs on an unprecedented scale. Capital-P Partying is truly the *opposite* of violence. A uniquely powerful means of "Waging Peace". Early on, Tom and Gary saw that this new form of social alchemy had near-limitless potential to unite humanity and dedicated their lives to spreading the movement globally.

A Battle Plan for World Peace maps the wild and winding road taken to host a Simultaneous Global Party that will change the course of history. We hope you will join us in Waging Peace, from all corners of the Globe. The Party Revolution needs YOU!

AN **ACCEPTANCE MOVEMENT**
NOT A RESISTANCE

A BATTLE PLAN FOR WORLD PEACE

OF THE PEOPLE BY THE PEOPLE FOR THE PEOPLE

"The DDP is as much about Decentralization as it is Partying" - Gary Lachance

Since the dawn of the blockchain, Gary has instilled Open-Source values as the essential underpinning of the DDP as a *Radical Acceptance Movement*.

This groundbreaking documentary will demonstrate that an Open-Source revolution (and a Really Big Party) is Humanity's last, best hope to create a future that will maximize Freedom, Creation and Loving Connection.

Accordingly, this film must fully embody the Open-Source ethos — which means releasing it with ZERO copyright protections.

This will allow it to be broadcast worldwide without restriction and enable our rallying cry to reach the maximum number of viewers!

We aim to rally all aligned spirits to support this project that is truly Of the people, By the people, and For the people!

What a Decentralized future might not only look, but feel like!
